

**NEW** unique all **GENSleek**

**Soft Comfort**  
The smooth plunger mechanism offers least resistance for ease and effortless accuracy

**Comfortable Finger Rest**  
For resting of the pipette on either hand

**Tip Ejector**  
For smooth ejection of the tip

**Ergonomy**  
Best in-hand grip for comfort

**Precise Setting**  
Of the selected volume ensures accurate aspiration & dispensing of the liquid

**Light Weight**  
Pipette makes your job less tiresome & improves efficiency

**Ideal Shaft Shape**  
Helps reach contents in narrow or deep tubes

**Durable Tip Cone**  
Offers highest resistance to shocks and chemical corrosion

## Fully autoclavable UV resistance, single channel pipettes

- ❑ GENSleek is made of mechanically robust and chemically resistant materials, making it a durable and stable pipette giving consistent performance for long time.
- ❑ Single hand pipetting can be done smoothly to improve operation efficiency.
- ❑ Hand temperature doesn't permeate easily through the body of the pipette. Therefore the accuracy of the volume measurement is not affected.
- ❑ Slim nozzle can be easily inserted into tubes to aspirate, which is useful at lab work.
