

## BIOHAZARD BAGS

Our red polypropylene biohazard bags are designed for the safe collection, handling, and disposal of hazardous biomedical waste. Manufactured from high-quality polypropylene, these bags offer excellent strength and reliability for laboratory and healthcare environments.

- Made from durable red polypropylene material for safe biohazard waste disposal
- Star-seal bottom design ensures enhanced strength and helps prevent leaks or bursts
- Clearly printed with the universal biohazard symbol for easy identification and compliance
- Available in multiple sizes to suit diverse laboratory and medical waste management needs
