

UNIVERSAL FIT GENTIPS

LOW RETENTION

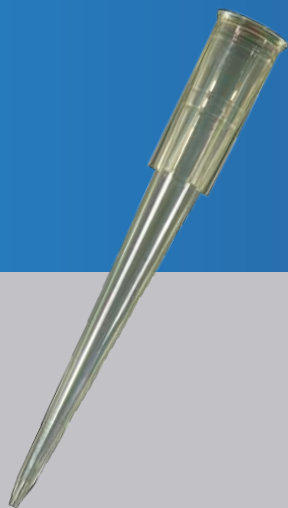

HIGH PRECISION

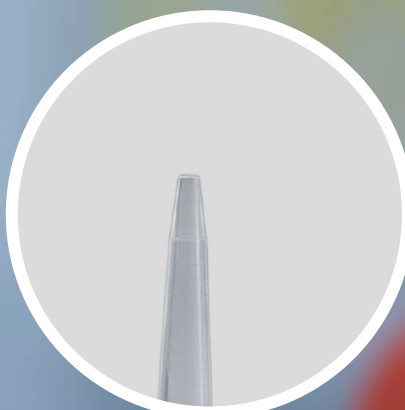

GENTip universal tip comes with a bevelled or fine point orifice. Bevelled orifice which gives shorter contact area while aspirating and dispensing, results in No Last Drop Issue and No False Results. While the standard tips, without bevelled orifice, comes with larger surface area, which reduces the control, results in last drop issues and no accuracy. GenTips are available in bulk packs, racked form and individually packed. Bulk tips are bagged, and heat sealed in “puncture resistant” laminated nylon-base dispenser packs with super wide gusset at bottom to stand neatly upright. Stack rack options are also available in 10ul, 200ul and 1000ul.

Unique Features

- » Made of 99.9% virgin Polypropylene.
- » Manufactured under ISO Class 8 clean room facility
- » Bevelled orifice for total sample recovery
- » Unique unigrip design with 3 internal rings creating a vacuum allowed onto the pipette shaft eliminating sideways dispensing
- » Use of high-quality diamond polished injection mould for smooth internal surface and reduced liquid hang-up
- » Zero Fluid Retention (ZFR) technology offers maximum fluid recovery.
- » Accurate graduation marks provide visual confirmation that the correct liquid volume is being aspirated or dispensed
- » Touch centrum design allows tips to fit all the single and multichannel pipettors
- » Tips are DNase/RNase, Human DNA, Heavy metal, Pyrogen, Phthalate and PCR inhibitor free.
- » USFDA 21 CFR Compliant

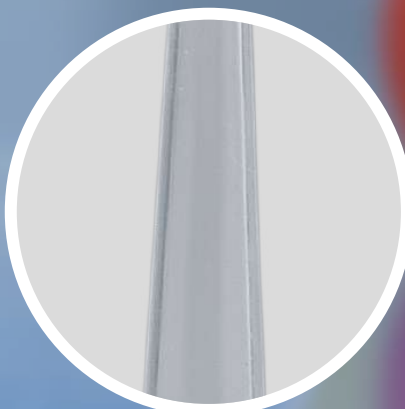

Genaxy Universal Fit GenTips

Beveled Orifices For Total Sample Recovery

Blade Prevents Droplets & Increases Precision

Molded In Exclusive 99.9% Virgin Polypropylene Resin Which Results In Exceptional Sample Delivery & Improved Assay Performance

High-quality diamond polished injection mould for smooth internal surface and reduced liquid hang-up

Better Sealability With Soft But Touch Centrum Design
